August 9 Program—JOB1 Celebration

Conor Gee and Cheryl McIntyre, presenters, honor the student interns, mentors, employers and volunteers for the ROTARY/One youth signature project, JOB1.
In 2003, the Rotary Club of Chicago was looking for a vocational services program that would deliver significant community value and engage rotary members as well as the community it serves. With that, the Job1 Summer Internship Program was created. The Job1 Summer Internship Program provides job readiness training and summer jobs to qualified CPS high school students. Job1 is part of the city's KidStart Corporate Initiative, preparing CPS high school students for the workplace by providing substantive internship opportunities with local business' and firms in the Chicago land area.

One hundred thirty-eight students from 23 Chicago schools competed to be one of 58 students selected to participate in the 2011 Job1 training program. Thirty-four students completed the three trainings and qualified for internships of which 28 accepted internships, 2 found other jobs, and 4 withdrew. 25 Interns completed the full summer schedule.
