Edmonds Daybreakers

An Experience Auction  
Making A Difference

# Experience *Washington* Saturday, March 12th, 2016

## MAKING A DIFFERENCE

Over the past decade, the Daybreakers have given thousands of hours and hundreds of thousands of dollars working to improve the lives of children in Edmonds and throughout the world. Once again, we are increasing our efforts and are asking for the support of our friends and neighbors to help continue these important causes.

## IN OUR COMMUNITY

Each year, we find ways to help families keep healthy food on the table, stay in clean warm clothes and enjoy the spirit of the holidays even when times are exceptionally tough. We also help families recover tragedies through our annual support of the Burned Children's Foundation Camp and other similar programs.

## IMPROVING EDUCATION

Is the silver bullet in the fight to help save at risk youth, so we focus our time and energy on serving our local students through vocational mentoring, support school music & arts programs, and recognizing students who excel at academics and service to their community and peers.

## PROVIDING OPPORTUNITY

Every year, we support 10 extraordinary students in Edmonds who aspire to continue their education at a community college, trade school or University. For many of our recipients, they are the first generation of their family to attend and graduate college.

## BEYOND OUR BORDERS

Our spirit of service doesn't stop at the shores of Puget Sound, we're helping provide children & families in Central America and Africa with low cost, sustainable clean water filtration, as well as helping to vaccinate them against dangerous but preventable diseases.
